

EASTERN BATTLE TO CONTINUE; RUSSIA REJECTED PEACE

REFUSAL TO ACCEPT GERMAN'S
OFFER MEANS THE FIGHT
WILL CONTINUE.

RUSSIAN ARMY BELIEVED SAFE

London Observers Think Grand Duke
Has Avoided the German
Enveloping Move.

(Associated Press)
Russia, having rejected what Eng-
land regarded as a bona fide propo-
sal by the German emperor for peace
with a part of Poland traded for Ga-
licia, the great struggle in the east
must continue.

It is becoming increasingly mani-
fest that Germany looks to the east
for a settlement of the war. By over-
running Serbia she would occupy a
favorable strategic position to invoke
Bulgaria's passive or active aid in
reaching Constantinople along the
main line.

Making Progress
The Teutons continue to make
progress northeast and southeast of
Warsaw and the Austro-Hungarian
claim to have cut in two the Russian
forces which retreated after losing
the Lublinchelm railroad. Praga,
a suburb of Warsaw on the eastern
bank of the Vistula, has been occu-
pied by the Germans.

Germans' Plan Fails
London observers believe that the
attemp of the Teutons to entrap
Grand Duke Nicholas' retreating
Russ forces has failed.

Turks Claim Success
Constantinople reports determined
trenches fighting favorable to the
Turks.

Turk Battleship Sunk
The Turkish battleship Khyrdzed-
din-Barbarossa, 2900 tons displace-
ment, has been sunk by enemy subma-
rines Constantinople reports. The
majority of the 600 officers and crew
were saved.

Germans Ford Vistula
The Germans have forded the Vis-
tula at Warsaw and have captured
2,000 Russians; near Lomsea 1400
Russ were taken; the Teutons have
pushed closer to the fortress Kovno,
400 prisoners being taken; a number
of aeroplanes have been shot down
in France, three of them after a bat-
tle with German airmen, Berlin
states.

Petrograd, Aug. 9.—From absolutely
trustworthy sources the Bourse Ga-
zette learns that last week Emperor
William, through the King of Den-
mark, offered Russians terms of
peace. The reply of the czar to the
Danish monarch's letter was the cate-
gorical declaration that at the present
time there could be no question of
peace negotiations.

These statements are by no means
improbable.
Having failed to carry out her origi-
nal program of crushing France in
the first few months of the war Ger-
many has now altered her general
plan and is straining every nerve to
eliminate Russia from the number of
her antagonists in order to be able
to concentrate all her energies
against the allies in the west when
they at last are in a position to cause
her serious inconvenience.

Hoped to Crush Russia.
Germany has hoped, by the mo-
mentum of her assault on both flanks
of the Polish salient to cut off and ut-
terly destroy the Russian armies oc-
cupying it and thus reduce Russia to
impotence.

No doubt her calculations were
largely based on the idea that the
Russians would cling desperately to
the Warsaw and Vistula fortresses
and thus allow themselves to be
caught in a trap.

Last week it must have been clear
to the Germans that their plot was
frustrated. Thanks to the timely de-
cision of the Russian chief of com-
mand Warsaw was evacuated prompt-
ly and with thoroughness. The Ger-
mans will find that the Polish capital
is an embarrassing luxury.

ONLY REPRESENTATIVE OF U.S. IS WITHDRAWN

BRAZIL MINISTER IN MEXICO IS
ORDERED HOME BY HIS
GOVERNMENT.

DEVELOPMENTS ARE DISTURBING

(Associated Press)
Washington, Aug. 9.—The Brazil-
ian minister, who is the only diplo-
matic representative of the United
States in Mexico, has been withdrawn
by the government to forestall expul-
sion by Carranza, it is authoritatively
stated.

Carranza has expelled Senor Orte-
go, the Guatemalan minister and was
prepared to expel the Brazilian minis-
ter for the same reason he ousted Or-
tego—the participation of their coun-
tries in the Pan-American conference
conference on the Mexican situation,
which will be resumed in New York
Wednesday.

The Brazilian minister will sail on
Wednesday from Vera Cruz for the
United States. The developments are
very disturbing for the success of the
Pan-American conference.

New York, Aug. 9.—A conference
which is believed to have had an
important bearing on pending nego-
tiations to secure permanent peace in
Mexico, was held here by Secretary
of State Lansing and Secretary of the
Treasury McAdoo, although its nature
was not revealed. It also was believed
that questions arising from the recent
Pan-American financial conference
were discussed. Before leaving for
Washington Mr. Lansing declined to
make any statement. Mr. McAdoo
was summoned here from Maine to
meet Mr. Lansing.

Mexico City, Aug. 9.—It is officially
announced that the constitutionalists
have occupied the mammoth hydrau-
lic power plant of the Mexican light
and power company on the Necaxa in
the state of Puebla which supplies
Mexico City, Toluca, Pachuca and
other points. The occupation will
give protection to the Necaxa em-
ployees.

The Carrancistas have started train
service out of Mexico City over sev-
eral lines for short distances. They
say they intend to extend the traffic
as repairs and military occupation
continue.

RIBS BROKEN IN FALL FROM MOVING TRAIN

PETER CARNEY, CLINTON, I.A.,
HURT IN NELSON YARDS
THIS MORN.

Peter Carney, who has been cook-
ing for a railroad construction camp
at Clinton, Iowa, sustained two frac-
tured ribs and several body bruises
by falling between two cars of a
freight train on the Northwestern
railroad, on which he was beating a
ride, at Nelson this morning. He was
placed on an extra engine in the Nel-
son yards and brought to this city
and taken to the hospital where his
injuries were attended by the com-
pany surgeon.

JONES AND NELSON IN TROUBLE AGAIN

BOYS, UNDER BONDS TO GRAND
JURY, ARE ACCUSED
BY GIRL.

Robert Jones, William Nelson, Max
Freese and Earl Cupp were taken in
custody by Sheriff Phillips Saturday
on complaint of Miss Kate Thurn.
The hearing has been continued until
Wednesday evening before Magistrate
Kent. The young woman alleges that
while walking on West Seventh street
en her way to her home on Logan av-
enue, in company with a girl friend,
she was attacked by the young men.
Both Jones and Nelson are now
out on bonds to the September term
of the grand jury on charge of steal-
ing lumber from the Greig sheds and
Wilbur Lumber Co.

BIG LOSS OF LIFE AND PROPERTY IN ERIE (PA.) CLOUDBURST; BROKEN DAMS SWELL THE FLOOD

STATE STREET IN HEART OF ERIE BUSINESS SECTION WHERE THE FLOOD STARTED

Erie, Pa., is gradually recovering from the cloudburst which swept the city entailing the loss of more than a score of lives and doing property damage in the millions. For many hours the city was in darkness, and the telephone service was useless. All trains were held up by the flood. Scores of persons were entrapped in their homes. In the accompanying illustration is shown State street, in the heart of the business district, where there was more than five feet of water. There also is shown the district near the reservoir, where the flood started. The flood started at Twenty-eighth street and came down through the Mill creek, a stream running through the eastern section of the city. The water rose four feet in five minutes. Houses were torn loose from their foundations and culverts were choked.

BIG STUDEBAKER CAR BELONG-

DAHSED BACKWARD DOWN HILL

I. N. U. Employees Rescued Occupants
From Watery Grave With
a Ladder.

Hugh Bennett, his son Samuel, Mr.
and Mrs. Edward Fischer and Elmer
Fischer of the Bend had narrow es-
capes from death or very serious in-
jury at about 7 o'clock Saturday even-
ing when the Bennett automobile in
which they were riding, and which
was being driven by Samuel Bennett,
plunged backward through the rail-
ing at the foot of Crawford avenue
and plunged into the mid race.

The fortunate presence at the Illi-
nois Northern Utilities company's
power house of Ira Mighell, B. Em-
mons, Daniel Blackburn, Harry Min-
nihan and Charles Finley is probably
all that saved some of the occupants
of the car from drowning, for Miss-
man was the only one who leaped
from the machine as it rolled down
the hill into the water.

These men, together with Dr.
Thompson, who was in the vicinity,
at once rushed to the assistance of
the victims of the accident and by
means of life preservers, ladders and
ropes rescued them immediately.
How the passengers got out of the
car, on which the top was up, as it
settled in over twelve feet of water, is
miraculous.

Lost Control of Car.
It is evident from the story told by
the victims that in attempting to shift

WOODYATT BURNED BY ELECTRIC WIRE

TOOK HOLD OF LIVE ONE WHICH
HAD FALLEN ON EAST
FELLOWS STREET.

Russell Woodyatt was badly burn-
ed, and had a narrow escape from se-
rious if not fatal injuries Sunday morn-
ing when he took hold of a live wire
which had fallen in front of his home
on East Fellows street. In taking hold
of the wire Mr. Woodyatt thought he
was grasping it at an insulated place.
The moment he touched the wire,
however, the current, 2200 volts,
knocked him down and he was unable
to let go of the wire. Fortunately he
was standing on the dry cement side-
walk, for had he been standing on the
damp ground the shock would prob-
ably have proven fatal. His brother-
in-law, who saw him fall, rushed to
his assistance and pushed the wire
away with a broom. For a time it was
feared the heavy shock had paralyzed
the victim, but he showed marked im-
provement in the afternoon, and but
for the bad burns to his hands it is
not thought the results will be se-
rious.

WILLIAMS WAS BIG ATTRACTION; 8,000 HEARD HIM SING

GREAT TENOR SANG EXCELLENT
PROGRAM IN FAULTLESS
STYLE

DR. SPANGLER THIS AFTERNOON

Assembly Starts Last Week With
Prospects of Favorable
Weather

Inspired by the enormous crowd
and the excellent program Sunday,
the Assembly enters upon the sec-
ond and last week with new life. Be-
tween 7000 and 8000 people heard
Evan Williams sing last night, and
between 5000 and 6000 people were
on the grounds during the day.
There were about 850 automobiles
in the park.

Nearly every city, town and ham-
let in northern Illinois was repre-
sented. Every automobile carried
from 5 to 6 persons to Dixon.

Sunday was the first big day in
point of attendance of the session.
It seemed like old times. It only dem-
onstrated that with headline attrac-
tions and good weather the people
will come. Not by any means is the
Rock River Assembly on the decline.

Spangler's Address
Dr. J. T. Spangler of Harrisburg,
Pa., the man who lectures like Sam
Jones, delivered his address, "The
Mark of a Man," to a large audience
this afternoon.

Before the hour of the lecture Mrs.
Luke Stuart of Polo gave another ex-
cellent program of readings.

Dr. Spangler's lectures were inter-
esting and instructive. He is not an
orator, but his logic was excellent,
his diction perfect and delivery pleas-
ing. For nearly two hours this not-
ed divine from the old Keystone

DEVINE MENTIONED FOR JOLIET WARDEN

CHICAGO PAPERS SAY HE IS POS-
SIBLE SUCCESSOR TO
ALLEN.

CONSTITUTION PROHIBITS IT

Representative John P. Devine of
this city was mentioned by the Chi-
cago papers Sunday, together with J.
J. O'Rourke of Cook county, W. C.
Crollius of Joliet, J. F. Quinn of Jol-
iet, Representative T. N. Gorman of
Peoria and F. E. Sullivan, who has
charge of the chair contract at the
state prison, as possible successors to
E. M. Allen, resigned warden of the
state penitentiary at Joliet.

Mr. Devine stated to the Telegraph
this morning that he was not, never
had been, nor would he be a candi-
date for the office, and he further-
more called the reporter's attention
to a provision of the constitution of
the state of Illinois which provides
that "no person elected to the general
assembly shall receive any civil ap-
pointment within the state from the
governor, the governor and the sen-
ate or from the general assembly dur-
ing the term for which he shall be
elected."

JENSEN CAR TURNED OVER NEAR ROCHELLE

MRS. JENSEN RECEIVED INJUR-
IES IN ACCIDENT SATUR-
DAY AFTERNOON.

Mrs. Nels H. Jensen, 321 College
avenue, received painful bruises to
her hip and leg Saturday afternoon
when the automobile in which she
and her husband were riding turned
over near Rochelle. The automobile
had gotten into some deep ruts in the
road and in the attempt to turn out of
them the car turned over. Mrs. Jen-
sen was taken to the Rochelle hospi-
tal while, after seeing her under the
proper care, Mr. Jensen and daughter
returned home. The car was not badly
damaged and Mr. Jensen brought it
home from Rochelle on Sunday even-
ing.

THREE CONVICTS ARE SOUGHT BY OFFICERS

ESCAPED FROM HONOR CAMP AT
LOCKPORT ON SUNDAY
EVENING.

(Associated Press)
Joliet, Ill., Aug. 9.—Dave Ander-
son, aged 26, an honor convict at the
state prison here, is at large. He left
the penitentiary last night unques-
tioned; but it is considered that his
promise to former Warden Allen, by
the terms of which he became one of
the prisoners who was not to be
guarded, ceased to be binding when
Allen resigned. He was sentenced to
hang for the murder of Detective Cal-
lahan of Chicago seven years ago, but
Gov. Deneen commuted his sentence.
Harry Peterson, sentenced for twenty
years, from Vandalia, and C. E. Bar-
low of Bloomington, under a ten year
sentence, escaped with Anderson. All
were employed at the "honor" farm
at Lockport.

GRAND JURY MAY INVESTIGATE CHARGES

LEGISLATORS' MILEAGE AC-
COUNTS ARE SAID TO BE
UNDER FIRE

(Associated Press)
Chicago, Aug. 9.—The Daily News
prints a special from Springfield,
which says that the calling of a spe-
cial grand jury to investigate the
conduct of legislators who are al-
leged to have mulcted the state in rail-
road mileage accounts during the
last session of the general assembly
was the sequel proposed today to the
injunction suits now being argued
before Judge Creighton. It is re-
ported a Jacksonville attorney today
appeared as representative of the
State Grange, which it is said has de-
cided to follow the Fergus suits to
the finish.

Allen Hutchinson and daughter of
Ashton were here Saturday.

MEXICAN BANDITS REPELLED BY U.S. SOLDIERS IN TEXAS

ATTACKED RANCH NORTH OF
BROWNSVILLE SUNDAY
NIGHT

FIVE AMERICANS WOUNDED

Meagre Details Say That Several Of
The Mexicans Were
Killed

(Associated Press)
Brownsville, Tex., Aug. 9.—Four-
teen ranchmen, reinforced later by
United States soldiers and Texas
Rangers, repelled from 50 to 200
Mexican outlaws who last night at-
tacked Norias ranch, sixty miles
north of here. More federal soldiers
are being sent to the ranch. The
Mexicans retreated southward.

Five Americans Wounded
According to the meagre details
at hand several of the bandits were
killed, while five Americans, three
of them soldiers, were wounded.
It is reported that 300 Mexicans
crossed the border into Hidalgo coun-
ty today in small parties.

Scott in Conference With Villa.
El Paso, Aug. 9.—General Villa and
General Hugh L. Scott, chief of staff
of the United States army, are hold-
ing a conference on Mexican affairs.
Villa is said by those who should
know to be convinced of the utter
collapse of his effort to become dic-
tator of Mexico and is said to be
willing to accept any measure of peace
that will recognize him as a patriot
and enable him to retire and save his
face. While talking of his future and
still importing ammunition, the com-
ing of Gen. Scott is said to have been
brought about upon a suggestion from
Villa himself who hinted through
Geo. C. Carothers that he would quit
if the United States would help him
to turn loose.

Gen. Scott laid before Gen. Villa
the plans of the United States for
Mexican pacification to ascertain
Villa's views. It is said the United
States plans to eliminate Villa. Za-
pata, Obregon and Carranza from
presidential possibilities in its peace
plans and have the four of them
through delegates agree upon some
man considered strong enough to take
up the task of pacifying the country.
Villa Willing to Be Eliminated.
Villa is said to be willing even to
retire to the United States where he
is reputed to have enough wealth
stored to make him independent for
the rest of his life, and, it is said, he
will insist that Carranza, Zapata and
Obregon do the same thing for the
time being, leaving Mexico to the re-
storative influences of whoever is se-
lected by the peace conference, which
will be held if the plans of the United
States do not fail. The peace con-
ference would be composed of delegates
representing all the Mexican factions.
These delegates would nominally se-
lect a man for provisional president,
but since he must be agreeable to the
United States, President Wilson would
virtually exercise veto power over the
convention according to what is
learned here.

Financing Mexico Serious Problem.
Washington, Aug. 9.—Financing the
new government which the United
States in conjunction with the South
American republics hopes to estab-
lish in Mexico has developed into one
of the most serious elements of the
problem of restoring and maintaining
order south of the Rio Grande. Pres-
ident Wilson himself, has been in-
formed that the new government of
Mexico will be put to the necessity of
negotiating an enormous loan and
that funds will not be forthcoming
unless the United States gives posi-
tive assurances that it will go to any
extreme to uphold the new adminis-
tration in Mexico City.

FOOT AND MOUTH DISEASE AGAIN

Discovered On Farm Five Miles From
Chicago Today

(Associated Press)
Chicago, Aug. 9.—Foot and mouth
disease has been discovered on the
farm of Henry Pearson at Wheeling,
five miles from Chicago. A quaran-
tine has been established five miles
around the farm.

Incidentally the attendance of Dixon fans was about 100 per cent worse than the game played by the Home Guards, for had not a very large number of fans accompanied the Ogle county players it is doubtful if sufficient would have been taken in to pay the expenses of the visiting players. Consequently after the game the management announced that they were

Our Yearning for the Hills.

How much of the influence of early environment, of those habituated reactions which comprise for each one of us the iron ring of his destiny, there is in even our deeper attitude toward the external world—toward what we call Nature! Not long ago I spent many weeks in the prairie country of the west, a sense of oppression constantly increasing in weight upon my spirit. Those endless, level plains! Those roads that stretched without a break to infinity! A house, a group of barns, a fruit-orchard, now and then a clump of hardwoods, alone broke the endless, flat monotony of snow-covered fields—no, not fields, but infinitudes where a single furrow could put a girdle about an entire township in my home land! My soul hungered for a hill; my heart craved, with a dull longing, the sight of a naked birch-tree flung aloft against the winter sky. Back through the endless plains of Illinois the train crawled, away from the setting sun. But the next daylight disclosed the gentle rolling slopes of the Mohawk valley, and before many hours had passed the Berkshire hills were all about, like familiar things recovered. The camel-hump of Greylock to the north was sapphire-blue and beckoning. The nearer mountains wore their reddish mantles, pricked with green, above the snowy intervals, and laid their upreared outlines stark against the sky. Shadowy ravines let into their flanks, suggestive of roaring brooks and the mystery of the wilderness. The clouds trailed purple shadow-anchors; the sun flashed from the ice on their sacred ledges. And a weight seemed suddenly lifted from my spirit. The words of the ancient Psalmist came to my lips unconsciously: "I will lift up mine eyes unto the hills. From whence cometh my help? My help cometh from God."—Walter Pritchard Eaton in Harper's Magazine.

Is Vocational Training Enough?
If man could live by bread alone we might rest with vocational education. But by that very intellectual unrest that makes for evolution he cannot. Having eaten, he must learn to use the life he has preserved. But while sustenance is theoretically a very simple problem being only a question of how much you can earn and what you can buy with it, the use one makes of the vital energy into which life transforms is the most complex and difficult of all questions. Religion, ethics, education all bear upon it, intersect and blend so that it is almost as difficult to say what teaches one to live as to answer the question of how to live itself. It is enough to observe that education has a part here which is not vocational, and which is enormously important.

This is the province of liberal education. Its services are indirect, because its effects must be transmitted into the art of living; they are uncertain in the same proportion as all life is illusory and never to be confined in measures made by man. Nevertheless, although these services are definite in their breadth, at least we can specify some of them. We know, for example, that the mind must be able to grasp abstractions; and so we apply mathematics. We know that it must have perspective and background if it is to understand the passing show of brief reality allowed it; and so we instill history. We know that it must be able to interpret character, to feel the loftiest emotion, to perceive beauty and enjoy it; and so we give it literature and the arts. Man is to be liberalized. He is to be taught to comprehend life.—Henry S. Canby in Harper's Magazine.

A TENTATIVE PLAN FOR SETTLEMENT OF EUROPEAN WAR

Germany to sell to France Alsace-Lorraine for an equivalent of its real value and retire from France and Belgium, but to have commercial access to the Belgian seaport, which would be declared a free port; Germany to pay over to Belgium the amount acquired from France to restore Belgium; the Colonies to be restored to Germany to be England's and Japan's peace concessions; Austria and Italy to agree between each other for a settlement and urged to do so by the other nations; Constantinople to be a free port to appease Russia, Turkey to acquiesce and Austria and Serbia to agree between themselves to settle their differences; establish a World Court able to enforce its decrees by an international police force of the world—military and naval forces superior to those of any single power in the world. All the above nations to pledge themselves for a peace to last fifty years at least, agreeing as advantages to be gained thereby to reduce their armies and navies to a peace basis, which would admit, during that period, of their liquidating their liabilities incurred during the war. All these nations to obligate themselves to work in unison to maintain peace not only amongst themselves but throughout the world. I feel quite sure that the United States, South America and China would gladly join in the combination for the great advantages that would accrue to them by the certain assurance of peace prevailing for the next fifty years.

HENRY CLEWS,

President of the American Peace and Arbitration League.

TEACHING CITIZENSHIP DUTIES.

Much interest is being manifested in the plan to introduce military instruction in our high schools. This is a good thing, in view of our unpreparedness for modern war, yet there is a field in which the public schools might be of greater use, but in which so far they have lamentably failed. They do not give a sufficient instruction in the duties of citizenship.

Theoretically they lay stress on the public side of education; actually they relegate such matters to a brief course in civics. In no public school is sufficient time and emphasis given to the most vital branch of instruction—the teaching of political thinking.

Such a course might necessitate a little less stress on something else—on mathematics, Greek, Latin, European history, music, etc. It would certainly occupy much of the student's time. He should be taught the history of the country, the things for which the various parties stand, the meaning of graft and corruption, the proper way of voting. There should be taught political debates and trial elections in all high schools. Beyond question, if such instruction were given in all the public high schools of this country the standard of intelligence among voters would show a corresponding rise.

The American people are not so indifferent to the duties of citizenship as they are ignorant of them. The average man has to pick up his political knowledge from the newspapers. This is well enough in its way, but he should leave school with a knowledge of political conditions and with the ambition to do his duty by the country.—Richmond Times-Dispatch.

MATTER OF NECESSITY.

Of discussion over that sentence, "I didn't raise my boy to be a soldier," there seems to be no end, and as is usual in such cases, practically all of the debate is beside the point. Of course, women do not raise their sons to be soldiers. The women who did would be a monstrosity. But neither, as a rule, do they raise them to be cowards or mollycoddles. They intend and hope that they will some time be men.

Now, unfortunately, men by reason of their manhood and by force of circumstances are sometimes called upon to be soldiers, and to defend the mothers who raised them. In their hearts most normal mothers would have it this way. There are fates more deplorable than the fate of the man called upon to fight for his country and his home, the fate, for instance, of the man who lacks the opportunity to fight when his country and his home are threatened.—Detroit Free Press.

MUST BE RELIABLE.

A slogan is no good unless it connotes something worth while. What we have got to aim at is not merely plastering our wares with the announcement "Made in the United States. We have got to make that announcement connote the best goods of the kind that can be procured. We cannot do that by advertising that it is so. It has got to be so, in fact; and people have got to know it of their own proving. It is not a thing to be done in a day, and it is certainly not to be accomplished by merely sticking on labels. The label is important as a "boost" only if the goods it sticks to may be depended upon. Otherwise it is a "knock." To send out a fraudulently adulterated thing marked "Made in the United States" would be a poor card for the United States. Everybody must admit it, of course. But there is a tremendous lot of talk about just marking our wares, as if that alone were going to work miracles. We know the answer without waiting for any experiments. It won't.—Lowell Courier-Citizen.

EVAN WILLIAMS.

If you heard Evan Williams you heard one of the best singers that has ever appeared before a Dixon audience, and probably the best with the exception of Madame Schuman-Heink. The auditorium at the Assembly was packed solidly, which means that there were 5,000 people in front of the stage, and the seats on the stage were filled with people. The Assembly management made a wise move when it secured Evan Williams. The big attractions are what pay and bring the crowd. Mr. Williams' superb tenor voice was simply beautiful.

PRESENT RATE OF PROGRESS.

Merely by way of confirmation of the French mathematician who figured it out some months ago that at the rate of progress at that time the French would reach Berlin in 1943 it may be mentioned that the French have taken 200 yards more of trenches in the direction of Berlin.—New York World.

AN ARAB LEGEND.

Story of the Covetous Man Who Went a Step Too Far.

The Arabs tell a story to show how a man's philosophy overshoots itself. Under the reign of the first caliph there was a merchant of Bagdad equally rich and covetous.

One day he bargained with a porter to carry home for him a basket of porcelain vases for 10 paras. As they went along he said to the man: "My friend, you are young, and I am old. You can still earn plenty. Strike a para from your hire." "Willingly," replied the porter. This request was repeated again and again, until, when they reached the house, the porter had only a single para to receive.

As they went upstairs the merchant said, "If you will resign the last para I will give you three pieces of advice." "Be it so," said the porter. "Well, then," said the merchant, "if any one tells you it is better to be fasting than feasting do not believe him. If any one tells you it is better to be poor than rich do not believe him. If any one tells you it is better to walk than ride in your carriage do not believe him."

"My dear sir," replied the astonished porter, "I knew these things before. But if you will listen to me I will give you such advice as you never heard before." The merchant turned around, and the porter, throwing the basket down the staircase, said, "If any one tells you that one of your vases is unbroken do not believe him."

Without Prejudice.

A party of young men and women, members of a sketching club, were motoring along a country road. Just within the fence on the left grew innumerable graceful stalks, each bearing globes of pale green that shaded into gray and purple.

"How enchanting!" exclaimed one young woman.

"Do tell us," said another young woman, equally enthusiastic, to a gardener standing near, "what those beautiful things are."

"Them? Them's onions gone to seed."—New York Times.

**AT THE END OF A LONG HOT DAY**

It's then we seek the cooling breeze of the porch,—It's then we want all the comfort and rest that easy Chairs, Rockers, Benches and Swings can give us, it's then we appreciate the value of easy Porch Furniture and we're glad that we made our selections of them.

If you knew how little these comfortable things cost and how really pleasing they are you surely would come and pick out the ones that you like best TODAY. Don't drag indoor furniture out-doors; it's a waste to do it when you may have real porch pieces at the price we're quoting. Come and see for yourself.

ROCK RIVER ASSEMBLY

Continued from Page 14

state held his audience with a wonderful story of Man, his work in the world and the essentials which go to make a real man.

Prof. Moore Tonight

At 8 o'clock Prof. Willis L. Moore, the man who made weather for 18 years, will deliver his very interesting lecture, "Utility of the United States Weather Bureau."

Few men in the government service are closer to the public in its every day affairs than Willis L. Moore. The Royal Institution of London sent across the ocean and secured him for a series of lectures in 1912. It is considered a great honor to elect a lecturer by this famous institution.

Few have a conception of the vast and varied uses of the weather bureau, or the important part played by the weather in our business, health, and happiness. Prof. Moore's lectures make it plain. One gets a new idea of the wonders of nature and of the utilities of meteorological science; of the method of making weather charts, detecting the inception of storms, and the forecasting their future course, area and intensity. The lectures present vivid scenes of the phenomena of tornadoes, hurricanes and floods, and of the formation and sweep of cold waves. There is not a dull passage in any of his lectures.

Prof. Moore will lecture again Tuesday afternoon giving one of his best and interesting lectures, "Reminiscences of the Chief Weather Man."

Week's Forecast

Next Saturday evening the boys and girls will give their annual entertainment.

Next Sunday afternoon Dr. Wei Ping Chen of Peking, China, will tell a wonderful story of his country.

Sterling Day Friday

The management will sell season tickets as follows:

Adults—\$1.50
Children—75 cents

Morning Meetings

Beginning Tuesday morning at 10 o'clock Dr. H. D. Hoover, president of Carthage college will deliver a series of lectures on Russia.

Dr. Charles P. Wiles will lecture each day this week at 9 o'clock, the hour set apart for Bible study. His subject tomorrow morning will be: "The Mystery of Salvation."

Wirt's Lecture Fine

Dr. Lincoln Wirt held thousands Sunday afternoon with his wonderful story of war conditions in the countries across the ocean. He told of being in London when the monsters of the air shelled the city; how he saw large buildings destroyed and many people killed.

He took his hearers across the sea into France, through the hospitals in charge of American physicians, and into the trenches.

There has been no address deliver-

ed thus far in the session that seemed to interest as did the address of Dr. Wirt.

Williams Was Great

Evan Williams sang to the entire satisfaction of nearly 8000 people last night. From the beginning he captivated his large audience. He held all spellbound with his wonder-

ful singing. His songs were the kind that all could and did appreciate. Mr. Williams was at his best, and he completely mastered the art of singing naturally, so that articulation places no obstacles in the way of tone formation. His voice is glorious, and he knows how to use it.

THE ROOSTER

A rooster is a feathered alarm clock which does the heavy posing while a hen lays an egg.

Later on he takes all the credit for the job. He corresponds to the man who comes proudly downtown when his ninth child is born to get his wife another washing customer.

The rooster is handsome and dashing and is madly admired by his family. He couldn't be more popular if he were the tenor soloist in a comic opera company. This is because he does nothing but crow.

The rooster is much wiser than some men. They crow industriously and then in an evil moment attempt to perform and fall down and are given the cruel "ha ha" by the bystanders. But the rooster crows and refrains with great firmness from doing anything else. Thus he is never exposed and in time acquires more wives than a pugilist.

A hen who is raising twelve chick-

ens and scratching for all of them is as proud of the rooster who is watching her hustle as the wife is of the husband who can lick all creation but is going to stick around before starting anything until she has prepared one more square meal with trimmings, having stood the grocer off for the same.

The rooster has reason to be proud however, for he has one great talent. He can wake at daybreak. This would make a millionaire of him if he did anything after waking. However he is content to awaken the rest of the world. More people are awakened by roosters than by alarm clocks or all other appliances put together. It is impossible to start a rooster by winding him up like an alarm clock, but he can be easily stopped by this method. To teach a rooster not to go off in the morning take him by the head and gently wind him up. This separates his head from his body and makes it impossible for him to crow with any feeling or expression. Later on he can be boiled and eaten with very satisfactory results.

This is why there are so few roosters, comparatively speaking. A rooster like a poet is most highly appreciated after he is dead.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank you a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very much from a female trouble. I had bearing down pains, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and tend my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R.F.D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance. Free use of garage.

FARMER MISSING
CARRIED \$25,000

Clinton, Ill., Man Is Victim of Foul Play, It Is Feared.

UNHEARD FROM IN FIVE DAYS

Left in Auto to Close Land Deal at Springfield, Ill.—Seen By No One Along Road—Friends Believe Acquaintances Knew He Carried Large Sum.

Clinton, Ill., Aug. 9.—A. A. Reed, a farmer living near Clinton, drew \$25,000 from the bank last Tuesday and left in his automobile for Springfield to close a deal for the purchase of some land in this county.

He failed to return Tuesday night as he had planned, and efforts of his family and the county authorities to learn his whereabouts have failed. Not only Reed but his auto have disappeared.

The farmer was known to nearly every resident along the road between Clinton and Springfield, a distance of only forty miles, but no one can be found who saw him drive past on the day he vanished, and his relatives have come to the conclusion that he has been murdered for the cash he carried with him and that his slayers escaped in his auto.

Tracing Efforts Fail. Reed's son-in-law, Frank Lewis, went to Springfield to try to trace his father-in-law's movements, but nowhere could he find a trace of him. The real estate dealers with whom he had had an appointment reported that he had failed to keep it, and inquiries between here and the city failed to develop a single clue.

Reed was a man of punctilious and regular habits, and his friends scoffed the suggestion that he may have stopped on the way to Springfield, lost his money gambling and then voluntarily dropped out of sight to avoid the disgrace. The fact that he had large land interests in Clinton and its vicinity would bring him back, they say.

Acquaintances Suspected. The sheriff and his force believe the fact that Reed's plans on the day he disappeared were known to one or more shady characters and that they followed him or met him on the way and killed him. They believe these men were acquaintances or perhaps even friends of the missing man, and that they learned either through him or in an indirect manner that he had been negotiating to buy more land and that he was to close the deal in Springfield Tuesday.

FURIOUS FIGHTING IN VOSGES

French Troops Repulse Germans With Big Losses.

London, Aug. 9.—A furious battle in the Vosges, between the heights of Lingskopf and Schratmannele, in which the Germans sustained severe losses, is reported by the French war office. The renewal of the German offensive in this quarter met the determined resistance of the French troops, who completely repulsed several assaults on their position. It is stated that the dead bodies of more than 100 Germans were found in the wire entanglements before a single French company.

BIG SLIDE AT CULUBRA CUT

Eleven Ships Are Held Up—Dredges at Work.

Panama, Aug. 9.—All traffic in the Panama canal is stopped by another landslide in Culubra cut. Eleven big ships, including the Finland, which is taking 500 passengers from New York to the San Francisco exposition, are held up.

The last slide is said to be the largest slide since the canal has been completed and hundreds of tons of earth have been deposited in the waterway.

PAINTER'S STRIKE IS OVER

Men Sign Three Year Agreement for Closed Shop.

Chicago, Aug. 9.—The painters' strike, affecting 10,000 men, was formally settled after a four months' tie up.

In the agreement the employees assent to demands for a closed shop and a wage raise of 2½ cents an hour the third year. They gain by the insertion of an arbitration clause which provides that all labor difficulties be settled without recourse to strike.

Ethel Spurgeon Darnell Sues. Galesburg, Ill., Aug. 9.—Ethel Spurgeon Darnell of Avon has begun divorce proceedings in Monmouth, Ill., against the Rev. J. Morrison Darnell, now serving a sentence in the penitentiary at Leavenworth for violating the Mann act by virtue of his relations with Ruth Soper.

STEADFAST CONFIDENCE

The Following Statement Should Form Conclusive Proof of Merit to Every Dixon Reader.

Could stronger proof of the merit of any remedy be desired than the statements of grateful endorser who say their confidence has been undiminished by lapse of time? These are the kind of statements that are appearing constantly in your local papers for Doan's Kidney Pills. They are twice-told and confirmed with new enthusiasm. Can any reader doubt the following. It's from a Dixon resident:

B. A. Worley, blacksmith, Peoria Ave., Dixon, says: "The action of my kidneys was irregular and annoying and my back ached. After using Doan's Kidney Pills, the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

Over two two years later, Mr. Worley said: "Whenever my back gets lame and sore and needs a kidney medicine, I use Doan's Kidney Pills, and they give me relief." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Worley had. Foster-Milburn Co., Props., Buffalo, N. Y.

JUDGE H. V. FREEMAN, QUILTS

Ill Health Due to Grief Over Former Sentence Causes Retirement.

Chicago, Aug. 9.—Henry Varnum Freeman, dean of Chicago judges, resigned his place on the Superior court bench. The resignation was forwarded to Gov. Dunne from Harbor Point, Mich., where the aged jurist is attempting to regain his shattered health.

Judge Freeman's family lays his ill health in part to grief over the fact that twenty years ago he sentenced to the penitentiary for life three men who he later became convinced were innocent of the crime for which they were sentenced. One of the men died in the penitentiary and the other two were paroled a few weeks ago. Judge Freeman had made strenuous efforts to obtain the release of the two men for years after he became convinced of their innocence, and his inability to do so preyed on his mind.

"SOFT DRINKS" RUSE
FOR BOOZE, CHARGE

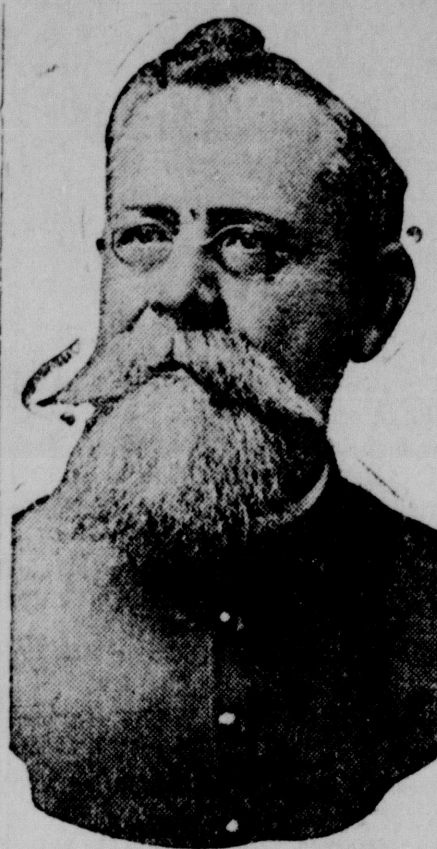

Authorities at Centralia, Ill., in
Wholesale Clean-up.

Centralia, Ill., Aug. 9.—As the result of a raid made here on alleged bootleggers by Sheriff J. E. McMakin and his deputies, seventeen of Centralia's former saloonkeepers and bartenders, who have been running their places since the town voted dry in April as "soft drink parlors" were arrested and placed under heavy bonds.

State warrants were served, those being charged with seven offenses being held under \$1,000 bonds and those charged on four counts being held under \$500 bonds. All but two have given bail for their appearance for trial before the county court at Salem in November.

Warrants were sworn out by States Attorney Finn for twenty men, after the information against them had been approved by the county judge Wilson. Members of the local option committee obtained evidence, they allege by purchasing both whiskey and beer from all the defendants.

BALKAN NEUTRALITY
IS TO END, REPORT

Italian Paper Says Important
Events Are Hanging Fire.

Rome, Aug. 9.—The Tribuna in an officially inspired comment upon the Balkan situation points out that the allies' efforts towards intervention by the neutral governments, it is now officially announced that the allies are negotiating with Serbia.

Eventual concessions will be necessary to bring about intervention on the part of Bulgaria and Greece. A detailed announcement is withheld, however, until the success of the representations is definitely assured, the Tribuna asserts, adding that important events are hanging fire which will end the neutrality of the Balkan states.

Rome, Aug. 9.—A despatch from Bucharest says that it is reported there that the Greek parliament will be opened a month hence with the object of delaying the cabinet crisis. This step will be taken, it is explained, in view of the fact that Venizelos, the former Greek premier, will resume power only in the event that parliament denies a vote of confidence in the present cabinet.

50,000 RUSSIANS IN PERIL

Berlin Claims Large Body of Foe is Trapped at Novo Georgeievsk.

Berlin Aug. 9.—Further German advances to the north and northeast of Warsaw are officially announced by the war office. The advances are aimed apparently at two goals, the first being the cutting off and capture of the Novo Georgeievsk fortress, in which 50,000 men are said to have been trapped, and the second being in support of Van Buelow's advance upon Kovno, Vilna and the Warsaw-Petrograd railroad, further to the northeast.

The chief gain announced is the capture of Sereck, at the junction of the Bug and Narew thirty miles northwest of Warsaw.

ESCAPED "LIFER" CAPTURED

Eugene Mason Fugitive From Texas Found on Illinois Farm.

Clinton, Ill., Aug. 9.—Eugene Mason, who escaped from the Texas penitentiary after serving eight months of a life sentence for double murder, was captured in Maroa. Mason was identified in the Decatur jail by a Dallas detective. The prisoner had been working on a farm near Maroa for two weeks.

London, Aug. 9.—Officers' casualty lists from July 19 to July 30 show that the British army lost 115 killed, 236 wounded and 14 missing, a total of 365. This brings the aggregate officer loss since the beginning of the war to 13,656, of whom 4,176 are recorded dead, 8,305 wounded and 1,175 missing.

Jitney Baseball Draws 15,000.
Newark, N. J., Aug. 9.—"Jitney baseball" was inaugurated here Sunday when Kansas City met the Newfeds in a double bill to which the bleacher admission was 10 cents. Newark won the opener, 3 to 1, and rain prevented the second game. Fifteen thousand fans attended, proving the popularity of the innovation.
